

R-W720FPT1XINX

638lt TOP FREEZER | 4 Door French Door INVERTER Refrigerator

LARGE FRENCH DOOR SERIES

Features

- 638lt Capacity
- Top Mount Freezer
- 4 Door French Door
- Auto Ice Maker
- Water through the Door
- INVERTER refrigerator
- Only 471kWh per year power consumption
- Warranty: 5 Year Parts & Labour Warranty (Additional 5 Years Parts Warranty on the Inverter Compressor)
- LED Lighting
- Touch Screen Controls
- Dual Fan System to cool fridge & freezer independently
- Big, Moisture Guard Vegetable Compartment
- Eco-Thermo Sensor (to monitor usage)
- Nano Titanium Technology
- Mould proof Door Gasket
- Selectable Mode Vegetable Compartment
- No Frost | CFC & HFC-Free
- Tempered Glass Shelves

INVERTER x Dual Fan Cooling

Compact High Power Inverter Compressor

The high-precision, high-durability inverter compressor finely adjusts cooling power over a wide range from high to low. Unlike a conventional compressor that cools only by switching a fixed power on or off, the inverter compressor is capable of providing exceptionally powerful cooling by generating a large volume of chilled air, while also providing efficient low power cooling.

Depending on conditions inside and outside the refrigerator detected by the Eco Thermo Sensor and with microcomputer control, it provides optimum cooling power at all times.

Dual Fan Cooling – Dedicated Fans

Two dedicated fans, one for the refrigerator compartment, the other for the freezer, independently cool the compartments. So according to conditions, chilled air can be delivered only to the refrigerator compartment, only to the freezer, or to both, which is impossible with conventional refrigerators that have only one fan. What's more, the fans adjust airflow to provide even more powerful and efficient cooling when required.

Eco Thermo Sensor Control

Hitachi's Eco Thermo Sensor detects temperature changes inside the refrigerator, and then the microcomputer provides optimum cooling for efficient operation at all times.

Moldproof Door Gasket

Thanks to Hitachi's mold proofing treatment, the door gasket can be cleaned easily.

R-W720FT1XINX INOX

Automatic Ice Maker

Ice cubes can be made automatically and continuously simply by filling the tank with water.

LED Digital Control Panel

LED digital control panel lets you instantly activate microcomputer-controlled operating modes.

Tempered Glass Shelves

As well as offering an elegant appearance, these shelves are scratch-proof, heat-resistant and they prevent spills. What's more, each one of them can hold up to 100kg.*⁵

*5 Weight resistance of Tempered Glass.

Moldproof Door Gasket

Thanks to Hitachi's moldproofing treatment, the door gasket can be cleaned easily.

Nano Titanium

Nano Titanium

Nano Titanium is a cutting edge technology that uses a TiO₂ catalyst to provide a powerful antibacterial, anti-mold and deodorizing effect. It's also maintenance-free and requires no extra energy.

Big, Moisture-Guard Vegetable Compartment

Dimensions 1835(h) x 910(w) x 727(d)
mm 638L

The vegetable compartment also offers ultra large storage capacity. And the Moisture-Guard on the top ensures indirect cooling to maintain the optimum moisture level, so vegetables retain their freshness.

Selectable Mode Compartment

The select levers let you separately adjust the temperature in each side of the compartment by switching between the Vegetable and Dairy/Meat modes. Layout flexibility offers even more convenience.
